

# POWER PEOPLE

## Talent Acquisition for a Greener Future

### Battery

According to the Innovation in Batteries and Electricity Storage Report, close to 10.000 GWh of batteries across the energy system and other forms of energy storage will be required annually by 2040. The industry is changing fast, and Power People understands the challenges facing the sector.

Our dedicated team of consultants can support clients throughout the whole project lifecycle. We have proven experience in supporting developers, and contractors for numerous battery jobs and projects throughout the world. Power People places permanent personnel across a wide range of disciplines.

#### These include:

- Battery Management System Engineer
- Battery Thermal Engineer
- Battery Test Engineer
- Systems Engineer
- R&D Engineer
- Cell Engineer
- Production Engineer
- Battery Process Engineer
- Battery Charging Engineer
